49  Before continuing make sure that the .txt file being used has data inputed in
    similar format.
50  The number of rows is the size of the graph that you will later be asked to input.
51
52   ***Example***
53
54      0 2 1
55      2 3 4
56      3 2 5
57      2 1 6
58  *************
```

```
59
60  Is your file in similar format?
61  If no enter 0  to exit. if yes enter any integer to continue.
62  2
63  What is the size of the graph?
64  4
65  Enter the path:
66  test1.txt
67  ***Edges***
68  <0,2>
69  <2,1>
70  <2,3>
71  <3,2>
72  Do you wish to continue? To exit enter 0 or to continue enter any integer
73  2
